

Posse Grounds Pavilion

Outdoor Performance Amphitheater

The Posse Ground Pavilion is owned and operated by the City of Sedona. All rentals and reservations regarding this site are handled through the Parks and Recreation Department. The pavilion was built in 2016 with a permanent stage with canopy, sounds system, dressing rooms and restrooms. This is a day use only facility. The guidelines for operating this facility have been established in the *City of Sedona Posse Grounds Park Operations Plan*. This document serves as a supplemental to the aforementioned, Operations Plan.

Technical Information

Capacity: 300 person attendance limit. Festival Style (sloped lawn) seating. There is handicap accessible seating (concrete slabs) at the rear of the audience and at the front of the stage.

Parking: There are four handicap parking spaces, and a loading and unloading space near the back of the stage. Audience parking is located across the street with 180 spaces. Additional spaces are available at the nearby West Sedona School, with their permission.

Stage Dimensions: 1,008 sq. ft. stage made of stained concrete. Usable area is less when accounting for the columns. Two sets of stairs and access ramp. Measurements are approximate. Please reference stage diagram.

3' high

20' wide at front

34' wide seventeen feet from front of stage

30' deep in center from front to back

Stage Layout: Please reference stage diagram.

Backstage: Two dressing rooms are available in a separate building off to stage left. Each dressing room is 150 sq. ft., both are handicap accessible. There are two sinks, one toilet, and one shower in each dressing room. Water for restrooms is turned off November through February. This building also contains a 200 sq. ft. storage room that can be used during your rental time only.

Power: Twelve power outlets are provided around the stage. Please reference stage diagram. A Company Switch is located in the Equipment Room 200A Single Phase. All power outlets are 120 Volt.

Sound: Performers must use the speaker system provided but are encourage to bring their own amplifiers to direct towards themselves. In order to properly control sound within the amphitheater there are two sets of speaker systems permanently mounted. Main speakers are permanent overhead hung Meyer full range amplified cabinets.

- 2 UPJ-XP aimed to cover the entire seating area.
- 3 UPM-XP front fill speakers. *These can be used alone for small audiences.*

Mixer Configurations: There are two Mixer configurations.

Option One- Permanent rack in equipment room. Mackie DL-1608 with Apple iPad Air for 16 mic inputs & 8 outputs. *IPad can be used portable in audience to mix live.*

- 12 mic inputs from stage.
- 2 Shure QLXD Combo Wireless Mic Systems (2 Lavalier mics and 2 handheld mics).

Option Two- Portable stage rack (connects through stage mic inputs).

- 1 Shure 2 mic input (*with tone control*) mixer.
- 2 front panel mic inputs
- 1 MP3/CD player with USB port
- 1 input for IPod

Audio Accessories:

- 6 full height mic stands with booms
- 2 Countryman Type 85 direct boxes
- 12 25' XLR mic cables
- 4 50' XLR mic cables
- 6 Shure SM58 mics with switch

Assistive Listening System: Willams RF System Fed from Mackie DL-1608 with house signal.

- 4 Portable receivers with single ear headsets
- 2 Inductive Loops for replacement of headset for IL listening

Decibel Limit: Due to City of Sedona restrictions, sound level must not exceed 60 DBA at the property line. Code Enforcement will determine the proper amplification level during event set up so that the maximum limit is not exceeded. The City does levy a \$2,500 fee per violation and the event may be terminated at any time if this regulation is not adhered to.

Amplified Sound: Amplified sound will be allowed from 8:00 a.m. to 7:00 p.m. April 1 through September 30. Amplified sound will be allowed from 8:00 a.m. to 6:00 p.m. from October 1 through March 31. This is a Day Use Only facility.

Lighting: There is no stage lighting, work lighting or house/audience lighting. There is a DMX 512 Distribution System with 1x8 Opto Splitter in equipment room. A Company Switch is located in the equipment room 200A single phase.

Rigging: Is not available at this facility. Nothing can be hung or affixed to the canopy or columns.

Restrooms: Located at the back of the building. Both restrooms are handicap accessible. The men's restroom has two sinks, two toilets and one urinal. The women's restroom has two sinks, and three toilets. Water for restrooms is turned off November through February.
