SAVE THE DATES
Verde Valley SCITECH Festival
MARCH 21 – 29, 2015

The Verde Valley SciTech Festival is a week-long region-wide celebration of Science, Technology, Engineering and Math (STEM or STEAM when you include the Arts) held annually in March.

The Festival is a series of fairs, workshops, exhibitions, tours and expos held throughout the Verde Valley communities, including municipalities, school districts, and colleges.

The Festival is here to motivate and educate toddlers, school age children as well as adults, and the entire community, encouraging the next generation of STEM enthusiasts.

These events would not be possible without the support of the many participating local businesses.

VERDE VALLEY SCITECH FESTIVAL has events across the Verde Valley:
