

MONTHLY FINANCIAL REPORT OCTOBER 2015

JUNE 1, 2016

INTRODUCTION

I am pleased to present the monthly financial report for October 2015. This report addresses the three major funds of the City: General Fund, Highway Users Revenue Fund (HURF) or Streets Fund, and Wastewater Fund (*this information is contained on pages 4-6*). This report will also summarize the financial position of the City of Sedona for the first four months of the current fiscal year (FY) 2016 (July 1, 2015 through June 30, 2016) compared to the first four months of last fiscal year 2015 and provides an estimate of how the year will end (See Attachments D, E, and F).

Here is a list of all the attached charts and schedules contained in the report:

- Attachment A – Sales and Bed Tax Revenue (Page 7)
- Attachment B – State Shared Revenues (Page 8)
- Attachment C – Business Sales Subject to Transaction Privilege Tax (Page 9)
- Attachment D – General Fund Revenue and Expenditure Detail (Page 10)
- Attachment E – Wastewater Fund Revenue and Expense Detail (Page 11)
- Attachment F – All Funds Fund Balance Summary (Page 12)

OCTOBER SUMMARY

General Fund Revenues

The October 2015 report continues to show an increase in economic activity for the City and in turn, increased revenues. For the first four months of the fiscal year, sales tax (*not including bed tax*) revenue is at \$4,316,607 which is \$254,202 above the first four months of FY15 or an increase of 6% year to date (YTD) and is also 6% above FY16 Budget. Bed tax revenue is at \$840,391 for the first four months of FY16, which exceeds the prior FY15 YTD bed tax revenues by 8% and is above FY16 budget by 11%.

Reported taxable sales for the year are up 5%, and sales from Amusement & Other Services and sales from Leasing continue to be the highest category of increases at 24% and 16%, respectively, above last year (*See Attachment C*). The Hotels/Motel and Retail activity has slowed down a bit from the first three months of the fiscal year, while Restaurant & Bar activity has increased.

However, the overall increases the City is realizing in sales tax activity is offset to some degree by the decrease in construction sales taxes of 8% from the first four months of the prior fiscal year. Effective January 1, 2015, State legislative changes affected the taxation of maintenance, repair, replacement or alteration of existing property. Previously, the taxing authority was based on the location of the construction activity. Now, contractors are required to pay the retail tax at the point of sale where materials are purchased. This has likely had an impact on the taxable sales. In addition, it is our understanding that the new statute has caused confusion, and according to the State this has resulted in some of the taxes not being paid at all.

License and permit fees also reflect the increase in the local economy with an increase over October 2014 of \$130,487. The increase was a result of increases in building permit revenues for both residential and commercial permits. In addition, the increases in license and permit revenues was a result of a change in the timing of the business license renewal process resulting in an earlier mailing of the renewal forms than the prior year and earlier receipt of renewal payments

Miscellaneous revenues also increased \$34,358 over the first four months of FY15. This was the result of an accounting adjustment to correct accrual entries made in FY15.

General Fund – Expenditures

General Fund expenditures were \$106,176 or 2% higher than the first four months of FY15. With 33% of the budget year complete, the General Fund is at 32%, just slightly below budget. (See Attachment D)

General Service's expenditures represented a larger portion of the budgeted expenditures (43%) due to the timing of payments for community support generally paid twice a year.

Highway User Revenue Fund (HURF) – Revenue and Expenditures

The HURF revenues for FY16 YTD have exceeded FY15 YTD by \$16,040 or 6%. HURF revenues are the gas tax monies distributed by the State based on population and the amount of number of gallons of gas sold within Sedona, not the price of the gas. Therefore, when gas prices go down, more gallons of gas are typically sold, which can cause a higher collection of gas tax revenues. This is what has happened so far for FY16, and we are optimistic that gas prices will remain steady for the remainder of the fiscal year.

Expenditures are down by 20% from the prior YTD and are a result of timing of expenditures. We anticipate seeing this increase in the next few months. Much of the activity in the Streets Fund is from paving and maintenance projects, so spending will not necessarily be consistent from month-to-month or year-to-year.

Wastewater Fund – Revenue and Expenditures

The Wastewater Fund revenues exceeded FY15 YTD revenues by \$109,099 or 3% and is primarily due to the increase in sales tax activity. The sales tax revenues are divided between the General Fund (70% of collections) and the remaining 30% goes to subsidize the Wastewater Fund. There was a slight decrease in capacity fees (\$25,390 under FY15 YTD).

The expenditures for the first four months of FY16 exceed FY15 by \$1,472,059 and are primarily related to the capital expenditures for the wastewater treatment plant capacity enhancement upgrades and drilling of an injection well. Overall, the Wastewater Fund is at 24% of FY16 budget, primarily as a result of \$8.2 million that has been appropriated for capital projects but not completed to date. (See Attachment E)

If you have questions or would like additional information, please feel free to contact me.

% Change	8%	2%	438%

The General Fund supports day-to-day City operations, including general City government, police services, public works, parks and recreation and outside service contracts. The General Fund's primary source of revenue is local sales taxes, bed taxes and state shared revenues. Together, these sources make up approximately 85% of the Fund's revenues. The remaining revenues come from permit & license fees, franchise taxes, fines, charges for service, interest and other miscellaneous sources. The local sales tax is split 70% - 30% between the General Fund and the Wastewater Fund.

For more detailed information on revenues & expenditures see Attachment D.

The Streets Fund, also known as the Highway Users Revenue Funds (HURF) Fund, is primarily funded through the State shared HURF, otherwise known as the gas tax. Monthly collections for HURF are shown on Attachment B. These dollars are restricted to use of streets/right-of-way maintenance and improvements. Because this state shared revenue source has been insufficient to fund the necessary maintenance needs of the City, General Funds have subsidized the expenditures in this fund for several years. This subsidy is budgeted at \$506,500 for FY 2016.

% Change	3%	54%	-247%

The City's Wastewater Fund accounts for the revenue collected for and expenses incurred to operate the City's wastewater or sewer utility. The Wastewater Fund is an enterprise fund and is accounted for as a proprietary fund type in which external users are charged fees for sewer service. In addition to monthly wastewater user fees and one-time capacity fees, the fund is supported by a portion of the City sales tax revenue. In FY 2013-14, 35% of the City's sales tax was allocated to the Wastewater Fund. In FY 2014-15, the sales tax allocation was reduced to 30% of the City's sales tax and remains at this level for FY 2015-16.

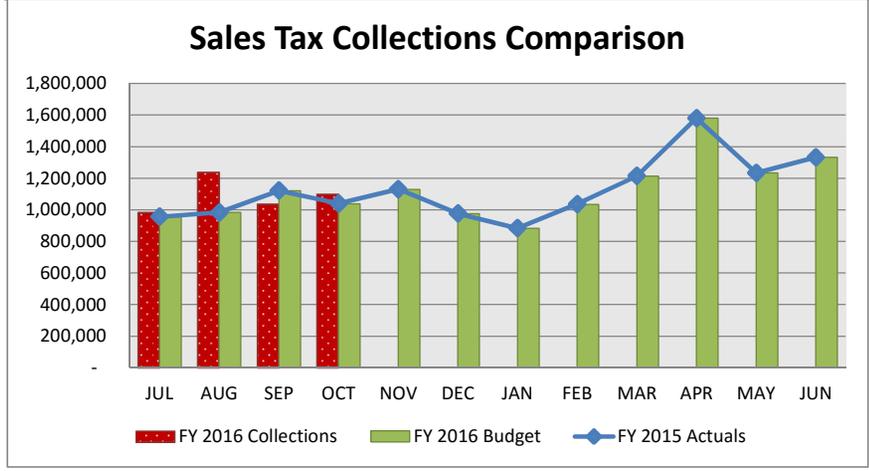

For more detailed information on revenues & expenditures see Attachment F.

*Sales are recognized in the month the tax revenue is reported to the City, although historically somewhere from 20% to 40% of sales and tax revenues may be attributable to prior periods. Tax revenue and sales are not always reported by the taxpayer in the same month the revenue is collected by the City. As a result, revenue and reported TPT Sales may not reflect the same trends.
