

City of Sedona
Application/Declaration of Property Owner
For Exemption to Statutory Grease Trap/Interceptor Requirements

Permit No.: _____
Applicant Name: _____
Business Name: _____
Business Address: _____
Assessor Parcel No.: _____
Phone No.: _____

The Sedona City Code Sec. 13.40.020 (D) provides: As a minimum pre-treatment requirement, grease, oil, or sand interceptors shall be provided by food preparation or food handling facilities, laundries, restaurants, service stations, auto repair shops, car washes and other facilities that have the potential to discharge high levels of grease, oil, or solids. An exemption to this requirement may be granted when it can be shown in a document that the specific activities that will be conducted on the site that will not produce wastewater containing oils, greases, or fats.

I. Please describe in detail any and all business activities being conducted at the above premises that employ or incorporate drains or drainage systems that are ultimately connected to the City sewer system.

II. In a diagram attached hereto, please indicate the location of any and all water sources, faucets, toilets, drains, bathtub or shower facilities, spickets, etc.

III. Please explain in detail, why you feel that the activities you propose to engage in at this location should be considered exempt from the requirement for installation of pre-treatment grease, oil or sand interceptors in the drainage system that is connected to this facility. Explain how activities on the site will be controlled to continue to maintain the exemption if granted.

Note to Applicant: Approval of this exemption does not allow future operations on this site which have discharges which would not have qualified for an exemption.

Certification Under Penalty of Perjury

I _____, hereby swear or affirm, under penalty of perjury that the information provided herein is true and correct to the best of my knowledge.
