- C. Resolution No. 2020-4 with Fiscal Year 2020-21 Budget

This memo is intended to provide guidance to the Governing Boards of the Sedona Summit II and Fairfield Community Facility Districts concerning the necessary procedures to adopt a budget for the Community Facility Districts. This is the second joint meeting this year.

A Community Facility District (CFD) is a special taxing district formed to pay for major infrastructure improvements intended to benefit a certain geographical area. The City has two CFDs. The Fairfield CFD was created in 2000 and the Sedona Summit II was created in 1999.

The City Council, sitting as the Governing Board of each CFD, will review and take possible action on the Feasibility Reports and Budgets (detailed later in the memo). Likewise, the City Clerk, City Manager, City Attorney, Director of Financial Services, and

¹ Sunterra was later acquired by Diamond Resorts. Fairfield was acquired by Wyndham Resorts. The obligations of the original development agreements and amendments transferred to the new entities.

City Engineer perform parallel duties for the CFDs. As a procedural note, City Council members serve as Directors for the CFDs and the Mayor serves as Chairperson. Please use these references during the meetings.

At this second joint meeting, the Boards will open a public hearing on the Feasibility Report for each CFD and possibly approve resolutions approving such reports. The Feasibility Reports set forth the project which qualifies for use of CFD funds, in whole or in part. To determine whether the project is appropriate, staff looked to the General Plan for future infrastructure improvements which were adopted when each CFD was originally formed. Not only must the projects fit within the General Plans but also benefit the Districts. As discussed at the July 14, 2020 meeting, the projects included are the Brewer Road Park and the Posse Grounds Park improvements.

After passing a resolution approving the Feasibility Reports and proposed projects, the Boards will open a public hearing to review the already adopted Tentative Budgets for the 2020-21 fiscal year for each CFD. The Boards will then consider approving a resolution adopting final budgets for 2020-21.

The Boards must adopt the Final Budgets for the 2020-21 fiscal year on or before October 1st. Notices of public hearings have been printed in the Red Rock News and notices have been sent via certified mail to the developments, as required by A.R.S. §48-716.

Below is a roadmap to the possible action of the Boards:

Agenda Item 3 is the joint meeting of the two governing boards and will begin with a presentation regarding the projects included in the CFD Feasibility Reports and the contributions to the projects from the City of Sedona.

Sedona Summit II

Community Facilities District
Feasibility Report
Fiscal Years 2021-2023

This Feasibility Report (“Report”) has been prepared by engineers and other qualified persons for presentation to the District Board (the “Board”) of the Sedona Summit II Community Facilities District (the “District”) with respect to certain public infrastructure to be financed with proceeds of the special homeowners assessment tax revenues (The “Assessment Revenues”) pursuant to the Community Facilities Act of 1989, Title 48, Chapter 4, Article 6 of the Arizona Revised Statutes, as amended (the “Act”).

PURPOSE OF FEASIBILITY REPORT

Pursuant to A.R.S. § 48-715, this Report includes (i) a description of the Projects which are to be constructed; (ii) a map showing, in general, the location of the Projects; (iii) an estimate of the cost to operate and maintain the Projects; (iv) an estimated schedule for completion of the Projects; (v) a map or description of the area to be benefitted by the Projects; and (vi) a plan for financing the Projects.

PROJECTS

The project to be constructed by the District is as follows: (I) Phased implementation of a master plan for the Brewer Historic Park located at 250 Brewer Road, Sedona AZ; (II) A new concession stand at Posse Grounds Park located at 525 Posse Ground Road, Sedona AZ; and (III) New shade structures and playground equipment replacement at Posse Grounds Park located at 525 Posse Ground Road, Sedona AZ.

These projects fit within the District’s General Plan for infrastructure improvements and benefit the District by providing new citywide recreation amenities. These projects increase the value of Sedona as a desirable tourist destination and enhance the quality of experience for the owners at the Sedona Summit Resort.

Construction Contracts for the Projects will be bid and awarded pursuant to the public bid process of Title 34 of the Arizona Revised Statutes and applicable City requirements and administered in conformance to applicable law and such requirements. The District may use up to \$539,000 of collected Assessment Revenues to finance the Projects over the course of the three-year period covered by this feasibility report. Remaining funds to finance current phases of construction will be contributed by the Fairfield Community Facilities District, Development Impact Fees, and the City of Sedona.

(I) Brewer Road Historic Park Development

In Fiscal Years 2016 and 2017, CFD funds contributed to the development of a Master Plan to guide future development and operations at the Brewer Road historic property. The development of the master plan for the site included a significant public participation component, soliciting the input of the community and future users on what would be the most desirable amenities to include in the future park development. Now that the master plan for this property has been finalized, funds are required for implementation and construction of the planned development.

The Brewer Road Historic Park and Recreation Facility will serve visitors and citizens of the entire city. The park will be a destination and a citywide focal point.

The entire project is anticipated to span numerous fiscal years beyond the scope of the three fiscal years addressed in this report. Any monies collected during these fiscal years may be held for larger phases of the project to be completed when adequate funding is available.

Shown below is a summary of the estimated construction costs of the Project. These amounts are estimated and are subject to the results of public bidding, and if such amounts are approved by the Board, cannot be exceeded. Upon completion of the Project, the District will dedicate the Project to the City of Sedona. Accordingly, it is not anticipated that there will be any operating or maintenance expenses borne by the District unless they are proposed and budgeted for in future years. Instead, the City will assume all future operating and maintenance expenses. The dollar figure provided below for construction is an estimate and will need to be further refined in future budget years once it is determined which elements will be pursued in each phase of the project.

(II) New Concession Stand – Posse Grounds Park

The Concession Stand has needed repairs and remodel for many years; however, the demand for the building was not large enough to justify the budget. With the increase of special events at this facility as well as the development of the new bike skills park and Pavilion, the demand on this building has increased and will continue to do so. This is the main public restroom facility for the skate park, basketball court, ballfields, special events, rentals, and bike park. This restroom will support any Pavilion rentals as well during the fall/winter seasons since those restrooms are closed. This building also provides storage for Little League equipment.

Shown below is a summary of the estimated construction costs of the Project. These amounts are estimated and are subject to the results of public bidding, and if such amounts are approved

by the Board, cannot be exceeded. Upon completion of the Project, the District will dedicate the Project to the City of Sedona. Accordingly, it is not anticipated that there will be any operating or maintenance expenses borne by the District unless they are proposed and budgeted for in future years. Instead, the City will assume all future operating and maintenance expenses. The dollar figure provided below for construction is an estimate and will need to be further refined in future budget years once it is determined which elements will be pursued in each phase of the project.

(III) New Shade Structures and Playground Equipment Replacement – Posse Grounds Park

According to the 2012 Parks and Recreation Master Plan, *Capital Maintenance Priorities – Upgrade Existing Playgrounds at Posse Grounds Community Park*, shade structures should be installed on all playgrounds within 1 to 3 years.

A design was completed in 2016 that would replace both playgrounds at Posse Grounds Park. The new playground design will be inclusive by nature so as to invite children of all abilities to play and imagine together. The rubberized playground surface will be ADA accessible so as not to eliminate anyone (adult or child) from being able to use the park. By installing this weather/sun protection structure, it will increase the life of the playground equipment and protect the users of the playground equipment.

Shown below is a summary of the estimated construction costs of the Project. These amounts are estimated and are subject to the results of public bidding, and if such amounts are approved by the Board, cannot be exceeded. Upon completion of the Project, the District will dedicate the Project to the City of Sedona. Accordingly, it is not anticipated that there will be any operating or maintenance expenses borne by the District unless they are proposed and budgeted for in future years. Community Facilities District
Feasibility Report
Fiscal Years 2021-2023

This Feasibility Report (“Report”) has been prepared by engineers and other qualified persons for presentation to the District Board (the “Board”) of the Fairfield Community Facilities District (the “District”) with respect to certain public infrastructure to be financed with proceeds of the special homeowners assessment tax revenues (The “Assessment Revenues”) pursuant to the Community Facilities Act of 1989, Title 48, Chapter 4, Article 6 of the Arizona Revised Statutes, as amended (the “Act”).

PURPOSE OF FEASIBILITY REPORT

Pursuant to A.R.S. § 48-715, this Report includes (i) a description of the Projects which are to be constructed; (ii) a map showing, in general, the location of the Projects; (iii) an estimate of the cost to operate and maintain the Projects; (iv) an estimated schedule for completion of the Projects; (v) a map or description of the area to be benefited by the Projects; and (vi) a plan for financing the Projects.

PROJECTS

The projects to be constructed by the District are composed of: (I) Phased implementation of a master plan for the development of the Brewer Historic Park located at 250 Brewer Road, Sedona AZ; and (II) New shade structures and playground equipment replacement at Posse Grounds Park located at 525 Posse Ground Road, Sedona AZ.

Each of these projects fits within the District’s General Plan for infrastructure improvements and benefits the District by providing new and improved citywide recreation amenities. Each of these projects increases the value of Sedona as a desirable tourist destination and enhances the quality of experience for the owners at the Fairfield Sedona Resort.

Construction contracts for the Projects will be bid and awarded pursuant to the public bid process of Title 34 of the Arizona Revised Statutes and applicable City requirements and administered in conformance to applicable law and such requirements. The District shall use up to \$431,000 of collected Assessment Revenues to finance the Projects over the course of the three-year period covered by this feasibility report. Remaining funds to finance current phases of construction will be contributed by the City of Sedona, Development Impact Fees, and the Sedona Summit Community Facilities District.

(I) Brewer Road Historic Park Development

In Fiscal Years 2016 and 2017, CFD funds contributed to the development of a Master Plan to guide future development and operations at the Brewer Road historic property. The development of the master plan for the site included a significant public participation component, soliciting the input of the community and future users on what would be the most desirable amenities to include in the future park development. Now that the master plan for this property has been finalized, funds are required for implementation and construction of the planned development.

The Brewer Road Historic Park and Recreation Facility will serve visitors and citizens of the entire city. The park will be a destination and a citywide focal point.

The entire project is anticipated to span numerous fiscal years beyond the scope of the three fiscal years addressed in this report. Any monies collected during these fiscal years may be held for larger phases of the project to be completed when adequate funding is available.

Shown below is a summary of the estimated construction costs of the Project. These amounts are estimated and are subject to the results of public bidding, and, if such amounts are

approved by the Board, cannot be exceeded. Upon completion of the Project, the District will dedicate the Project to the City of Sedona. Accordingly, it is not anticipated that there will be any operating or maintenance expenses borne by the District unless they are proposed and budgeted for in future years. Instead, the City will assume all future operating and maintenance expenses. The dollar figure provided below for construction is an estimate and will need to be further refined in future budget years once it is determined which elements will be pursued in each phase of the project.

(II) New Shade Structures and Playground Equipment Replacement – Posse Grounds Park

According to the 2012 Parks and Recreation Master Plan, *Capital Maintenance Priorities – Upgrade Existing Playgrounds at Posse Grounds Community Park*, shade structures should be installed on all playgrounds within 1 to 3 years.

A design was completed in 2016 that would replace both playgrounds at Posse Grounds Park. The new playground design will be inclusive by nature so as to invite children of all abilities to play and imagine together. The rubberized playground surface will be ADA accessible so as not to eliminate anyone (adult or child) from being able to use the park. By installing this weather/sun protection structure, it will increase the life of the playground equipment and protect the users of the playground equipment.

Shown below is a summary of the estimated construction costs of the Project. These amounts are estimated and are subject to the results of public bidding, and if such amounts are approved by the Board, cannot be exceeded. Upon completion of the Project, the District will dedicate the Project to the City of Sedona. Accordingly, it is not anticipated that there will be any operating or maintenance expenses borne by the District unless they are proposed and budgeted for in future years. Instead, the City will assume all future operating and maintenance expenses.
