\$ FY22 Project Budget: \$100,000

Total Project Budget: \$100,000

The 2017 Wastewater Master Plan Update (WWMP) included condition assessments of existing sewer infrastructure. During the evaluations, it was determined that the Brewer Road Force Main air release/vacuum breaking valves should be replaced in order to maintain proper functionality of the force main. This project will replace the air release/vacuum breaking valves in the Brewer Road force main.

Status: Staff is in the process of contracting with Construction Product Marketing for procurement and installation of the new valves. It is anticipated that the work will begin in October 2021.
