**\$ FY22 Project Budget:** \$67,000

**Total Project Budget:** \$2,949,300

This project was not initially included in the Transportation Master Plan. However, based on continued observation and the development of the Uptown Parking Garage and Transit Hub locations, staff believes an improved intersection at the new Forest extension and Ranger extension will provide congestion relief benefit. The image above is a concept of what a potential roundabout at the project location may look like. The project will also include a new bus lane on SR 89A and modifications to the Brewer Road roundabout.

**Status:** Staff has received a proposal for an initial intersection study that is expected to be complete by the end of June.
