READY SET GO!

Are you ready for an emergency? Take action to protect you, your family and your community.

Know what it means when officials say, "Ready, Set, Go!"

READY	<p>Prepare now: Register for your county/tribal emergency notification system. Build an emergency go kit.</p>  
	SET
GO!	<p>Be alert: Know there is significant danger in your area.</p> <p>Evacuate! Take your emergency go kit and follow evacuation instructions.</p> 

Make Your Home FIRE SAFE

DEFENSIBLE SPACE improves your home's chance of surviving a wildfire and protects the firefighters defending your home.

ZONE 1: 0 - 30 feet from buildings

- Trim or prune shrubs/vegetation to a height of 2 feet and provide clear space around each plant of at least 4 feet.
- Remove all flammable material from the ground, under decks, and around propane tanks.
- Keep roofs and gutters clear of debris.

ZONE 2: 30 - 100 feet from buildings

- Remove all vegetation that would allow flames to climb up vegetation or buildings.
- Trim limbs a minimum of 6 feet from ground.
- Create islands of shrubs, thinning them enough to walk between them.
- On slopes greater than 20% gradient, treatment should be extended an additional 100 feet from structures.
- Stack wood piles at least 30 feet from structures.
- Never prune near power lines, call your local utility company first.

For more information or assistance on defensible space, please contact your county/tribal Emergency Management Office.

READY, SET, GO!

The Ready, Set, Go! program encourages proactive measures to take before an emergency and actions to follow when communities are threatened.

1. READY: "PREPARE NOW"

- Be aware of hazards that threaten your community.
- Create defensible space around your home by clearing 30 to 100 feet of vegetation to protect it from fire.
- Build an emergency go kit with enough food, water and emergency supplies for 72 hours.
- Write a family communication and evacuation plan.

2. SET: "BE ALERT"

- There is significant danger in your area.
- Consider voluntarily relocating to a shelter or with family/friends outside the affected area.
- Stay aware of the latest news and information from public safety officials.

3. GO: "EVACUATE"

- Danger in your area is imminent and life-threatening. Take your emergency go kit and evacuate immediately to a shelter or with family/friends outside the affected area.
- Follow instructions from emergency personnel and stay on designed evacuation routes.

Evacuation / Re-Entry Pilot Project – Uptown & Brewer Rd.

“Together, we
can help ensure
the readiness &
resiliency of our
incredible city.”

Karen Osburn, City Manager

Pilot Project – Moving Forward

Estimated 6-8 months

T.H.I.R.A.

Threat & Hazard Identification Risk Analysis

- What threats & hazards can affect our community?
 - If they occurred, what impacts would those threats & hazards have on our community?
 - Based on those impacts, what capabilities should our community have?
-
- **Recommended every 3-years**
 - **Estimated 4-6 months completion**
 - **Project cost reimbursement funding approved through DEMA**
