\$ FY23 Project Budget: \$1,691,280
Total Project Budget: \$2,577,545

This project is one of the transportation projects identified in the Transportation Master Plan and by Council as a priority. The project proposes construction of a pedestrian bridge, tunnel, or other pedestrian crossing of State Route 179 between Oak Creek and SR 89A. A Feasibility Study was completed for the crossing which identified alternatives and provided a recommendation for a crossing type.

Status: Following the close of the second bid solicitation on March 23 with favorable bid results the City of Sedona awarded a contract for construction of the project to J. Banicki Construction, Inc. The City of Sedona is pleased to be working with the Banicki Construction. It is anticipated that the construction will start in mid-May and take approximately 9 months to complete.

City staff, ADOT and the consultant (WSP) will be coordinating oversight of the construction with County and Federal agencies, as well as local stakeholders.

The City of Sedona will be working on a public outreach program to keep residents and businesses informed on the construction as well as a project hotline for questions and concerns.

Project Status

April 2023

Project Phase	% Completion	Completion Date
Design	100%	Fall 2022
Construction	0%	Spring 2024
