\$ FY24 Project Budget: \$130,000

Total Project Budget: \$130,000

The existing recharge well filter system utilizes disposable filters, resulting in excess cost and waste for filtration. This project will replace the existing filtration system for the recharge well pump station with a new backwash filtration system.

Status: Staff is meeting with a consultant in September 2023 to begin the design phase process. It is anticipated that design will be complete in early 2024 and construction will be complete in July 2024.

Project Status **September 2023**

Project Phase	% Completion	Completion Date
Design	0%	Winter 2023-2024
Construction	0%	Summer 2024
