Cari,

Minor adjustments have been made to the latest P&Z drawing sheets. Foremost is the color elevation sheet a400 reflects changes of most of the exterior concrete walls to integrally colored masonry walls. Colors have been varied along the west, north and east sides to provide more articulation. One of the ventilation ducts was removed from the central location near gridline 5 and between gridlines F & E. This was a cost savings measure. Civil and Landscape have coordinated our updated front hardscape areas with their plan sheets.

Thank you,

Rhett Hastings
