SIM 10A – Traffic Calming and SUP – White Bear Rd to Pinon Dr

FY25 CIP Update

KEY FEATURES:

Consultant: To be determined

Contractor: To be determined

Timing: FY25

Design Challenges:

- Construction to remain within R/W
- Traffic Control

Project Manager:

John Hall, PE
 (928) 203 – 5125

City Engineer:

Kurtis Harris, P.E.
 (928) 203-5059
KHarris@SedonaAZ.gov

\$ FY25 Construction Budget: \$370,000

The City of Sedona Shared Use Path (SUP) system is an ongoing construction phasing of pathways making connections throughout the road network to accommodate the pedestrian and bicycling needs of residents and visitors to our community.

The subject project will make a connection with the existing SUP located in Pinon Drive and extend along S.R 89A to a crossing at Dry Creek Road, and further to White Bear Road.

Construction work is anticipated to include a “Speed Table” for a pedestrian crossing of Dry Creek Road south of White Bear Drive. Additionally, consideration will be given to the closing of the eastern pedestrian crossing of SR 89A at Dry Creek Road, thereby enabling a rephasing of the signal at this intersection to allow more green time to motor vehicles.

Status: Currently negotiating a design contract.
